

Project 4

Church Name: Living Water Fellowship, Wausau, WI

Pastor: Norm Fisk

Contact Person: Norm Fisk chasingstorms03@chater.net

Description: As soon as the weather permits I will need some strong bodies to help us get the rest of the stuff out of the old church building and pull down the ceilings and insulation terribly damaged by the water. We need to clean it up to make it more sellable, if that's possible. We will have to rent a dumpster, if we can scrape up the money, to dump all the damaged stuff and other junk in it so it can be hauled away. I don't have the strength to do this kind of work anymore and we just don't have the youth here to help. We can get some people who need community service, but that's limited to time. So far we are making ends meet - no salary yet - so all's up in the air. Whenever the weather permits and teams are available, we'll step up and in our weakness and God's strength, get the ball rolling.

Special note from Dennis Hansen related to this project: Living Water Fellowship, is a ministry based Church. Their old building had mold problems and they had to move out. They are renting space and getting by but not doing the ministry they once were. Norm is in his 70's and has worked through most of his retirement savings to keep the church doors open. They need help getting the old building gutted and ready to sell but they need EVERYTHING else as well. They need an evangelistic VBS, encouragement, training, revival services, etc.. A scouting team needs to see the need and make a plan for how best to help. They are in need now!
